

SB-2.0 Shielded Box

Application

SB-2.0 Shield Box provides an efficient RF isolated test environment for testing mobile, testing WLAN and small RF devices on the benches of R&D, service, QC and manufacturing.

Features

- High RF Shielding
- Easy Opening/Closing of Automatic Door
- EMI filters on all Data and DC lines
- Easily customizable to meet various test needs
- Fully microwave flat absorber

Specification

Shielding effectiveness : $\geq 80\text{dB}$, from DC to 6GHz

Real Interface Panel : Optional

- 2 SMA(f) outside and SMA(f) inside
- 1 EMI Filtered DSUB 25Pins
- 1 EMI Filtered DSUB 37Pins
- 1 EMI Filtered DC banana socket
- 1 M6 air tubing
- 2 EMI Filtered USB type A/B female
- 4 EMI Filtered 3.5mm Stereo Jack

Working Space : Custom Made Size

Weight : approx. TBA
